Category Building	User Group Faculty	Discipline Counseling/HS/ HAHR	Comment I always look forward to more time to spend in the library rather than using the electronic resources. Tlike the physical space!
Building Furniture	Faculty	English/Theatre/ World Cultures & Lang	Adequate, quiet & comfortable seating areas in Periodicals please.
Building Furniture Collection	Graduate Faculty	Other or Undeclared Philosophy/ Theology/RS	wood chairs are, not suitable for long time, "not enough group study, too much noise in the 24/7 room," Free PALCI and interlibrary loan access for faculty members is critical to our ability to do our research. "I'd like to see the library become more important to our students as a place for serious research and study. "In other words, at this point, I' can and do need to be able to work electronically and from home. "But that is because I spent many years in libraries and know how to use all of its resources and know when I need to physically visit versus access resources electronically.
Collection negative	Faculty	Biology/Chemistry/ Environ Science	Increased allocation of funds for the purchase of journals and books should be a top priority. I should think retaining or even increasing journal subscriptions and the purchase of new books should be a primary mission of the library.
Collection negative Collection negative	Faculty Graduate	Education Other or Undeclared	I'like the human service in the library. I just hope that the library can carry more research focused journals.
Collection negative	Faculty	Nursing/OT/PT	School of Nurse Anesthesia has few Journals to choose from. Obsigned or DVDs on anesthesia related topics is not adequate.
Collection negative	Undergraduate	Other or Undeclared	I would like to be more journals that are easily accessible. I mean my major is exercise science and that's not even listed as a discipline. PT is but what about the people who don't want to go into PT?
Collection negative	Faculty	Education	There is just not enough books and journals that are on site that meet my research needs. If only arrived two years ago, so maybe I can help identify much needed resources. The personal service that the library staff provides is impeccable. Where the library falls short is in the area of resources and space. Do we really

Distance Learner	Graduate	Education	I have always found what I've needed using the online library.(I am an online student)
Distance Learner	Graduate	KSOM	The Online search services have been VITAL to the success I've had in the online MBA courses. I've consistently scored high on the discussion boards based upon research I've done through the library online.
Distance Learner	Graduate	Education	Since I am a "distance learner", I have not had occasion to use the library in situ. However, having had the need to access Weinberg during my graduate training, I must admit that it was very convenient, comprehensive and frankly, quite easy to obtain the information I needed. I do not believe that my success in grad school could have been accomplished without this vital resource center.

Positive	Undergraduate	Nursing/OT/PT	Thank you for the addition of 200 free prints this semester!
Positive	Undergraduate	History/Political Science	Good stuff
Positive	Undergraduate	Nursing/OT/PT	Love this library, its the only place I can get my work done. Between the quiet of the whole place, the group study rooms available for use, Java Oty, really good hours and a nice helpful staff, this place is great
Positive	Faculty	Education	The library is a wonderful resource at the University, and the staff is extremely knowledgeable, helpful, cheerful, and courteous.
Positive	Undergraduate	Communications/ Journalism	The building itself is very large and the group study rooms are the best! The free prints are great and usually the employees are in good mood.
Quiet Study	Undergraduate	Biology/Chemistry/ Environ Science	update the computers, many don't work. build another library with more "quiet rooms"
Quiet Study	Undergraduate	Communications/ Journalism	Sometimes it is a bit loud on the floors where quiet study is designated. Although it is expected around finals and mid terms it is near impossible to find a quiet study place in the library.
Quiet Study	Undergraduate	Biology/Chemistry/ Environ Science	the library is a huge building, but for the number of students here on campus, it doesnt quite fit for everyone who might want to go there to study if their roomate is being loud and they cant concentrate in their room and need a quiet place to study. during finals week, i had to venture to denaples to study on the second floor, the floor being quite loud for finals week. I had no place to go, since my close friends that live in scranton were away at college so they could not pick me up to go study in their home. So I hated that feeling of a first come, first serve basis to the library when the library should accompodate everyone who ever wanted to study in there (and would also provide more individual study rooms for absolute quiet.) I can not work alone amongst a group of other quiet people in the library. It makes me nervous and feel more comfortable in a private room where no one would look at me or distract me. I feel that the first come first serve basis is no right and believe that a sign in room should be designated to the dedicated who really want to get work done.

Staff Positive	Undergraduate	Biology/ Chemistry/ Environ Science	The staff are very helpful and the quiet spaces within the library have been integral to my academic success here. It absolutely love the 5th floor and am glad that it has demonstrations that reach out into the community to educate it on a variety of topics. My only complaints are that some students visit the 4th floor quiet room and openly flout the quiet rule. I don't understand why they depth any participate to the computers in the Pro Deo room are either painfully slow or broken and unusable.
