CLASS HIGHLIGHTS

The Roche Family Center for Career Development conducted its annual First Destination Survey of graduates of The University of Scranton over a 12-month period from their graduation. We also report 6-month data to the National Association of Colleges and Employers (NACE). These are consistent with their First Destination Survey Standards and Protocols.

Key Findings for the Class of 2023

Information was collected from 1,124 graduates. The survey results show that 92% of graduates were employed or in graduate school within 6 months of graduation. The average starting salary was \$50,767. The average starting salary for graduates who were employed was \$50,767. The average starting salary for graduates who were in graduate school was \$13,700. The average starting salary for graduates who were unemployed was \$12,000.

STARTING SALARY PROFILE⁴

Salary Range

\$125,000**

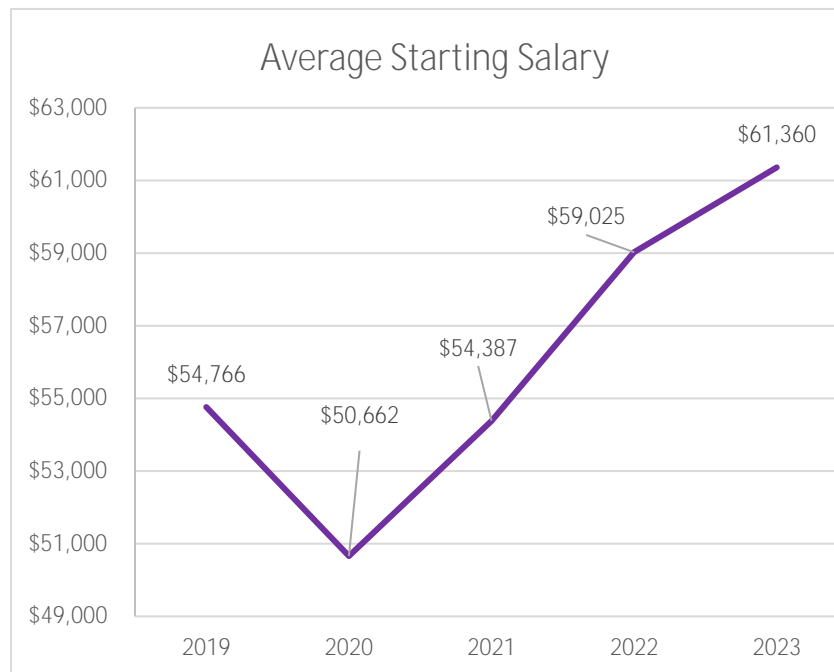

Median Salary

\$60,106

Mean Salary

\$61,360

Ma

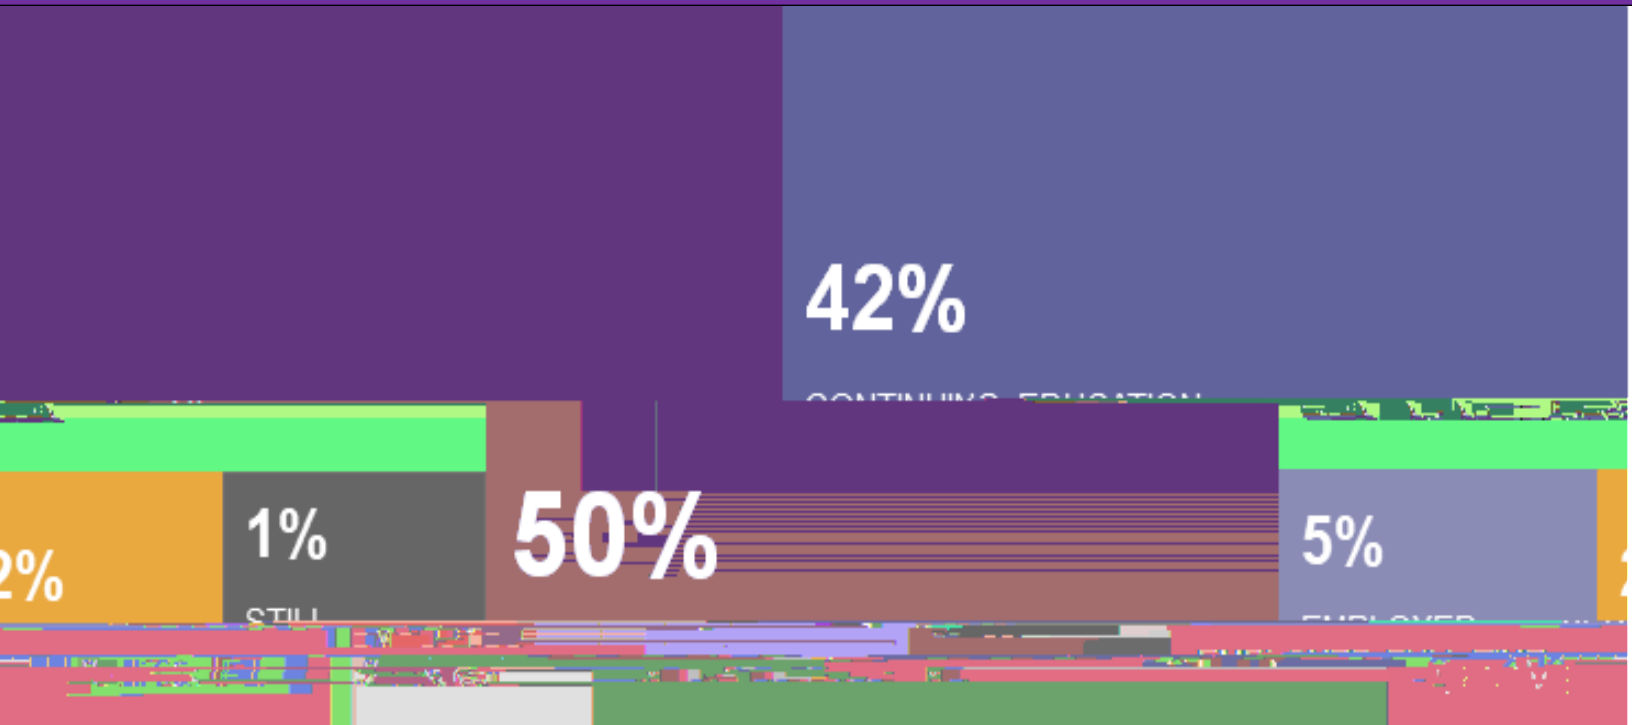

4. Starting salary information is based on the 226 graduates who self-reported their salary. This represents a 64% salary knowledge rate (226/353) for the salary question on the survey for those who gained full-time employment in the United States, a notable increase from a 46% salary knowledge rate (156/342) for the Class of 2022. In order to increase our salary knowledge rate, we continue to work with the colleges and our graduates to emphasize the importance of salary information for national rankings and accreditation. Average starting salary is only listed for majors in which more than one graduate provided information.
